# CALIFORNIA 911 SYSTEM

CA 911 Outages		
Northern California	Central California	Southern California
No 911 Outages	No 911 Outages	No 911 Outages

## 9-1-1 Outages/Remote/Community Isolations

- None reported.

## Service Interruptions

- None reported.

# **WEATHER OF CONCERN**

## **NORTHERN CALIFORNIA**

- Shower activity will continue into Monday, mainly over the southern Cascades, northern Sierra, and the foothills.
- High-elevation snowfall will be possible across the higher elevations of the northern Sierra Nevada and southern Cascade Range.
  - Snow accumulations in the 2 to 6 inch range will be possible, up to a foot over the mountain peaks in Lassen National Park.
  - Winter Weather Advisory remain in effect for elevations above 6,000 feet until 1700 hours on 09/30/19.

## **SOUTHERN CALIFORNIA**

- A strong onshore flow will deepen the marine layer and produce areas of light rain at times along and west of the mountains through this evening.
- It will be much cooler over the weekend and into early next week, along with strong and gusty westerly winds in the mountains and adjacent desert areas.

### **Weather Advisories, Watches, and Warnings currently active in California:**

### **Active Weather Warnings, Watches and Advisories by County:**

- <http://www.wrh.noaa.gov/hazardSummary/?state=ca&bycounty=1>

# **WEATHER KEY POINTS**

**09/28/19 - 10/04/19**

## **Saturday-Monday**

- Accumulating snowfall above about 6000 ft for the central and southern Sierra may create minimal impacts from winter travel conditions with reduced visibility and snow covered and slippery roads Saturday afternoon through Sunday into early Monday
- Isolated thunderstorms possible across portions of northern Inland and Coastal Regions Saturday afternoon, but no significant precipitation is expected
- Gusty winds can be expected for portions of the southern region coast, southern region inland valleys, and especially across the higher elevations of the southern Sierra Nevada mountains Saturday
  - Gusts 40-50 mph for Santa Barbara County South coast and mountains, Los Angeles County mountains, and in Kern County mountains and desert
  - Strongest gusts likely approaching 50-60 mph at times along the higher Sierra peaks.
- Increased potential for wind and low humidity effects for any fire activity for the Sierra front of Mono County Saturday afternoon and evening, with gusts 50-60 mph and humidity values down to 15-25%
- Cooler, and well below normal, conditions continue Saturday and through the weekend, with the coolest temperatures expected Sunday and Monday.
- Freezing temperatures remain likely in the higher elevations of the Sierra Nevada mountains, southern Cascades, and a few northern CA valleys Sunday, Monday mornings.

## **Tuesday-Friday**

- Temperatures warm gradually on Tuesday and Wednesday but remain a few to several degrees below normal.
- Freezing temperatures remain possible early Tuesday in the higher elevations of the Sierra Nevada, southern Cascades and a few northern CA valleys
- A weak system will approach the state Thursday, but impacts will likely be minimal.
- Otherwise, no major hazards are expected Tuesday through Friday.

# CALIFORNIA WEATHER IMPACTS

09/28/19 - 10/04/19

<u>Hazards / Day</u>	SAT	SUN	MON	TUE	WED	THU	FRI
<b>Non-Thunderstorm Damaging Winds</b>	Southern/ Srn Inland	Southern/ Srn Inland

# PRECIPITATION FORECAST

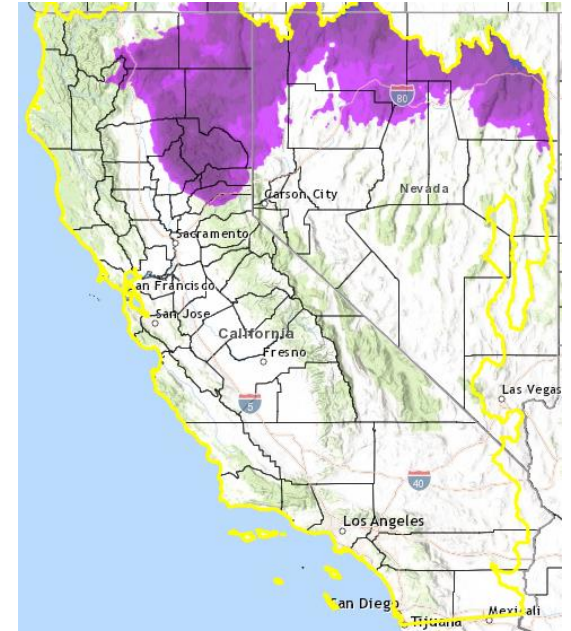

09/28/19 - 09/30/19

**Saturday, September 28**

**Sunday, September 29**

**Monday, September 30**

**Precipitation (inches)**

# **WEATHER OUTLOOK**

**10/03/19 - 10/11/19**

## **6-10 Day Outlook (October 3 – October 7)**

### **Temperatures**

- Below normal temperatures favored across most of the state, particularly for Inland region

### **Precipitation**

- Near normal precipitation slightly favored across central and southern CA, with a slight tilt of the odds toward above normal for extreme northern CA

## **8-14 Day Outlook (October 5 – October 11)**

### **Temperatures**

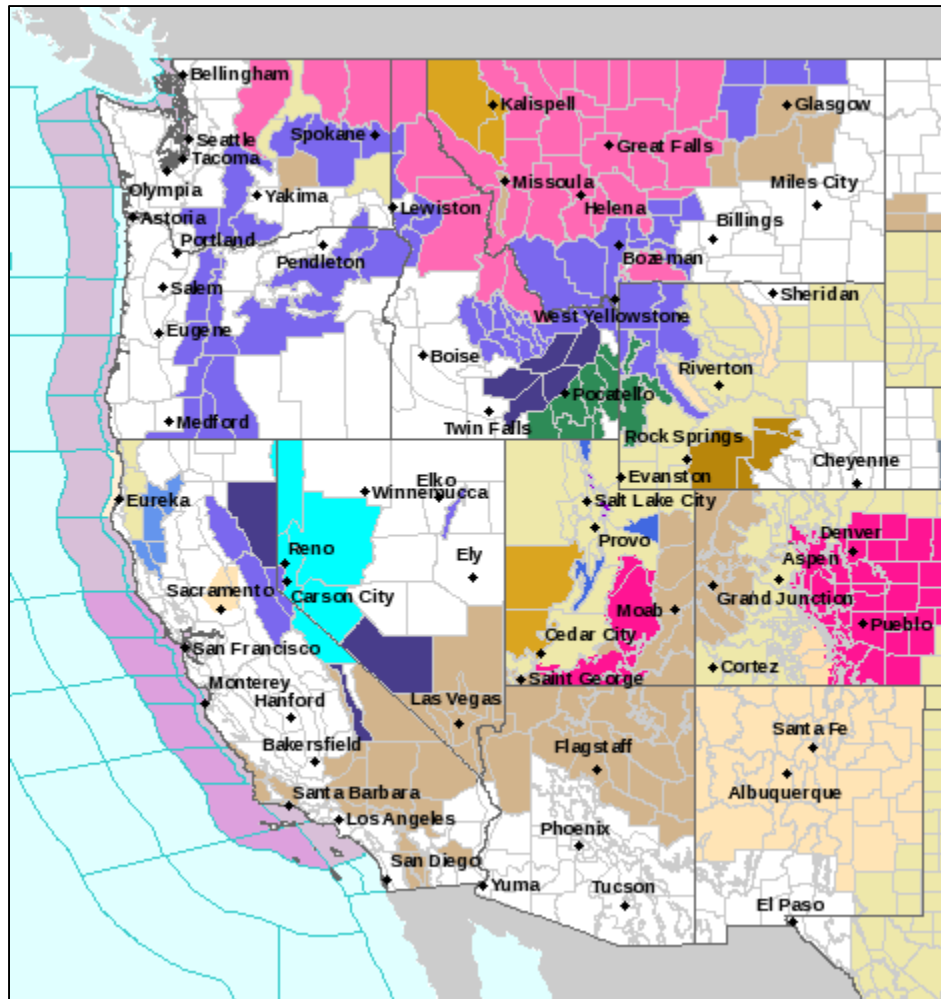

- Warmer than normal temperatures slightly favored for Coastal and Southern regions, with near normal temperatures expected for much of Inland region

### **Precipitation**

- Near normal precipitation favored across all but extreme northwest CA where there is a slight leaning of the odds toward above normal precipitation
